

ROTOBEC™
TOUGH HANDLING EQUIPMENT

WASTE COLLECTION GRAPPLES

by ROTOBEC

WASTE COLLECTION GRAPPLES
are designed for

- collection of white goods
- loading mattresses
- storm clean up
(logs, branches, posts, etc.)

- Their large opening and wide jaws are quick at gathering small things scattered on the ground.
- Their large volume and continuous rotators allow quick truck loading.
- Their thin jaws and wide opening make them excellent to clean along walls or sidewalks.
- They are designed to be mounted on self loaders.

WASTE COLLECTION GRAPPLES

by **ROTOBEC**

WASTE COLLECTION GRAPPLES

Very effective and particularly appreciated by municipalities for the collection of heavy roadside waste or cleanup after storms or natural disasters (logs, branches, posts, etc.)
